Dedicated **Full Stack Web Developer** skilled in **MERN Stack** and pursuing Bachelors in Computer Science & Engineering.

SKILLS

Frontend: Javascript, React.js, Tailwindcss, HTML, CSS, Figma

Backend & Database: Node.js, Express.js, MongoDB

WORK EXPERIENCE

Badkul Technology Private Limited

Frontend Developer Intern - [\[Certificate\]](#)

Sep 2025

- Developed and designed Trip Management Website's frontend, using React.js and Figma.
- Optimized the website to load quickly, keeping in mind the core web vitals

IB Photography

Freelance Web Designer - [\[Website\]](#), [\[Quotation\]](#)

July 2025 - Aug 2025

- Designed and developed a fully responsive photography portfolio website using Wix, showcasing wedding and event photography services.
- Functionality including auto-generated quotations via admin panel, client photo access through searchable name cards, and WhatsApp-integrated contact form.

PROJECTS

Secure Entry – QR-based Event Access System

Team Project

- Designed the complete UI/UX of the platform in Figma as the sole designer; collaborated with a 7-member team, used Github for collaboration.
- Developed the Service Details and Visitor Data pages in React, integrating APIs using Axios to fetch and display form-based visitor records.

KeepIt – File Storage & Sharing Web App [\[Repository\]](#)

Personal Project

- Built a file storage system with nested folder structure and secure shareable folder links, allowing users and external collaborators to upload, manage, and delete files with controlled access.
- Tech/Tools: React, Node.js, Express, MongoDB, JWT (access + refresh tokens), Cloudinary, Axios, Tailwind CSS

EDUCATION

Jabalpur Engineering College

Jabalpur, India

Bachelor of Technology in Computer Science Engineering
